Of course, with increased options comes an increased need to keep the Honda CRV parts list handy. As an example of change from one year to the next, the CRV switched from one tail light bulb to two bulbs. A good copy of the Honda CRV parts diagram is probably essential. The 2005 updates included XM radio and improved stereo systems.

LEDs (Light Emitting Diodes) last much longer than other forms of lighting, 50,000 hours or more. They're also unaffected by shock and vibration, making them particularly appropriate for off-road use. LEDs consume the least amount of power of any type of light, so you can mount as many lights as you want without straining your electrical system.

When driving in dense fog, the light from regular headlights reflects off the water droplets back into your eyes, impairing rather than improving visibility. Fog lights are positioned low on the vehicle and have a wide beam angled toward the ground, which reduces glare and helps you see the road better.
