If you have a Whirlpool or Kenmore refrigerator with a flex-tray icemaker, the defrost timer is integrated into the icemaker. It is NOT a separate unit, like those shown in Figure 21. This is true whether you are using the icemaker to make ice or not; it is running constantly to time your defrost cycles.

This style of refrigerator can have a freezer drawer located beneath the fridge portion. This would make it a bottom-freezer refrigerator as well. It can also be side-by-side. This means the freezer is on one side and the fridge is on the other. It is also possible to get a freezer-less appliance. What color options are available in a refrigerator?
