Wikibooks is a useful resource if you're curious about a subject, but you couldn't reference it in academic work. It's also worth noting that although Wikibooks' editors are sharp-eyed, some less scrupulous contributors may plagiarize copyright-protected work by other authors. Some recipes, for example, appear to be paraphrased from well-known chefs.

Most Reliable Harley Engine

Likely the most reliable F150 engine ever, the 4.6L V8 flew under the radar for most of its 16 years. You do not hear much about it, despite being on the Wards 10 Best Engines list from 2005 to 2008. There are virtually zero major complaints about its dependability aside from broken spark plug issues in 2004 to 2008, like the 5.4L.

Most Reliable F150 Engine: Dependable Ford Powerplants ...

The Evolution engine (popularly known as Evo) is an air-cooled, 45-degree, V-twin engine manufactured from 1984 by Harley-Davidson for the company's motorcycles. It was made in the 1,340 cc (82 cu in) displacement for Harley-Davidson Big V-twins bikes, replacing the Shovelhead engine until 2000 when the last EVO was placed in a production factory custom FXR4 (FXR2 and FXR3 were the first CVOs).

Harley-Davidson Evolution engine - Wikipedia

Also in my experience as a lube technician, I have found that the 3.6L Pentastar engine is pretty darn reliable. That engine comes in a massive variety of automobiles and they almost always seem to be running in tip-top shape regardless of mileage. The 3.8L Jeeps, on the other hand, aren't always running tip-top in comparison. JD Power Associates
